A PERSONAL NOTE

What I will build for Total Coverage Trucking

You are a startup trucking company in Florida with a clear plan: grow to **10 trucks in 24 months**, own the local niche of **same day transport within Florida**, and use your website to make **drivers and carriers want to sign up with you**.

That last part is the key. Most small trucking websites are built for shippers only. Yours needs to work twice as hard: it has to win freight, and it has to win people. A driver deciding between two companies will check both websites. The company that looks organized, professional and easy to join usually gets the driver. That is the website I am proposing here.

You mentioned Knight Transportation's website as your inspiration. That is a smart benchmark, and I studied it page by page for this proposal. On page 4 you will see exactly what Knight does well, where their site falls short, and how your site will beat it in the ways that matter for a local Florida company.

What this proposal covers

Your goals, understood

Your growth plan, your niche and your audience, written back to you so we both know we are building the same thing.

The Knight Transportation review

A real evaluation of your inspiration site, and the specific ways Total Coverage Trucking will do better.

Two clear packages

A Basic Starter Website at \$450 and a Full Package at \$730, each with exactly what is included and what is not.

Timeline, terms and sign off

A week by week plan, simple payment terms, and a signature page so we can start right away.

My recommendation, up front

Go with the **Full Package at \$730**. The online driver application and the carrier and shipper signup forms are the exact features that serve your number one goal, getting drivers and carriers to sign up. The basic site looks good, but the full site works for you every day. The full comparison is on page 8.

Web design and development · yasirbashir.com

THE OPPORTUNITY

Why the website matters for a 10 truck plan

Scaling from a startup to 10 trucks in 24 months means solving three problems over and over: finding freight, finding drivers, and looking credible enough that both say yes. Your website is the one tool that works on all three at once, around the clock.

24/7

Your best recruiter never sleeps

Drivers search and compare companies at night, after shifts. An online application means you capture them the moment they are interested.

1st

First impressions decide

Shippers and brokers check your website before they call. A clean, professional site is the difference between a callback and silence.

FL

The local niche is winnable

Same day transport within Florida is a focused promise. Most local competitors have weak or outdated websites. That is your opening.

What your website has to do

AUDIENCE	WHAT THEY NEED TO SEE	WHAT THE SITE GIVES THEM
Drivers	A company worth joining: real trucks, clear pay story, easy application	A dedicated drivers page and a simple online application they can finish from a phone
Carriers	A partner that is organized and pays attention	A carrier signup form that makes joining your network a five minute task
Shippers & brokers	Proof you can cover Florida, same day, reliably	Clear services, coverage area, and a quote request that gets answered fast

The startup advantage

Big carriers have big websites, but they cannot promise what you can: same day, local, and the owner picks up the phone. The site we build will say that loudly on every page. Small and fast is your brand, not your weakness.

WEBSITE EVALUATION · KNIGHTTRANS.COM

What Knight gets right, and where you will beat them

Knight Transportation runs one of the largest truckload fleets in North America, over 3,100 tractors and 24 terminals. I reviewed their website in detail. Here is what is worth copying, and what is worth doing better.

WORTH COPYING

- **Two front doors.** Clear separate paths for drivers ("Drive With Knight") and shippers ("Ship With Knight").
- **Application near the top.** The driver application sits high on the homepage, not buried in a menu.
- **Numbers as proof.** Fleet size, terminal count and equipment age build instant trust.
- **Clean, modern look.** White space, real photography, simple icons, card layouts.

WHERE IT FALLS SHORT

- **No human proof.** No driver quotes, no customer testimonials, only statistics.
- **Application friction.** Applying sends drivers to an external system with extra steps.
- **No quick answers.** No FAQ and no fast contact route for a driver with one simple question.
- **Built for a giant.** Generic national messaging, nothing local, nothing personal.

How Total Coverage Trucking will excel

KNIGHT TRANSPORTATION	YOUR SITE WILL DO BETTER
National and generic, speaks to everyone	Local and specific: same day, anywhere in Florida, on every page
Driver application on an external system	Driver application built into your own site, phone friendly, done in minutes
Stats only, no faces or voices	A personal startup story: real people, real trucks, testimonials as you grow
No FAQ, slow paths to answers	Driver FAQ plus a tap to call button on every page
Corporate distance, layers between people	Direct access: drivers and carriers reach the owner, and the site says so

In short: we borrow Knight's structure and polish, then win on speed, locality and the personal touch that a national fleet cannot offer.

UNDERSTANDING YOUR REQUIREMENTS

What you asked for, and the site plan to match

Your brief

- Startup trucking company, local to Florida
- Goal: scale to 10 trucks within 24 months
- Niche: same day transport within Florida
- Website must attract drivers and carriers and encourage them to sign up
- Inspired by knighttrans.com, adapted to your scale

How the site answers it

- Same day Florida promise front and center on the homepage
- Dedicated pages for drivers and for carriers, not just shippers
- Sign up actions on every page, never more than one tap away
- Knight style structure and polish, startup personality
- Built to grow: pages and features can be added as the fleet grows

Proposed site map

PAGE	WHAT IT DOES	BASIC	FULL
Home	The same day Florida promise, services at a glance, driver and carrier calls to action	✓	✓
Services	Same day transport, coverage across Florida, how a load moves with you	✓	✓
Drivers	Why drive for Total Coverage: pay story, equipment, home time, FAQ	✓	✓
About	Your story, your standards, the 10 truck vision	✓	✓
Contact	Tap to call, email, service area, simple contact form	✓	✓
Driver application	Full online application drivers complete from a phone	✗	✓
Carrier signup	Carrier onboarding form to join your network	✗	✓
Shipper signup / quote	Shippers request same day quotes and sign up online	✗	✓

Every page, both audiences

Like Knight, the site keeps two doors open at all times: a driver route and a freight route. Unlike Knight, both routes finish on your own site, in your inbox, the same day.

PACKAGE A

Basic Starter Website

Basic Starter Website

A clean, professional static website that puts you on the map

\$450 one time

The Basic package is a static website: five polished pages that present Total Coverage Trucking professionally, explain your same day Florida service, and give drivers, carriers and shippers a clear way to call or email you. It is the right choice if you want a strong online presence first and plan to add forms later.

What is included

Five static pages

Home, Services, Drivers, About and Contact, each custom designed in your branding, no templates.

Mobile first design

Drivers browse on phones. Every page is designed for phones first, then scaled up to desktop.

Tap to call and email links

One tap connects a visitor to your phone or inbox from any page on the site.

Basic contact form

A simple name, phone and message form on the Contact page, delivered to your email.

Search engine foundations

Proper page titles and descriptions so Florida same day trucking searches can find you.

Launch and handover

Deployment to your domain, a walkthrough of the finished site, and 30 days of bug fix support.

Not included in this package

- **Online driver application.** Drivers can call or email, but there is no in site application form.
- **Carrier and shipper signup forms.** These are part of the Full Package only.
- **Content management system.** Text changes after launch are handled as small update requests.
- **Third party costs.** Domain and hosting are registered in your name and billed at cost. Typical total is roughly \$15 to \$60 per year.

PACKAGE B · RECOMMENDED

Full Package

Full Package

The complete website plus the forms that recruit drivers and sign up carriers

\$730 one time

The Full Package is everything in the Basic Starter Website plus the three working forms that serve your main goal directly. Instead of asking drivers and carriers to call during business hours, the site signs them up for you, day and night, and delivers every submission straight to your email.

Everything in Basic, plus

Online driver application

A full application form: personal details, CDL and endorsements, experience, availability. Phone friendly, finished in minutes, sent to your inbox instantly.

Carrier signup form

Carriers join your network online: company details, MC and DOT numbers, equipment and lanes. You review and reply with next steps.

Shipper signup and quote form

Shippers request same day quotes online: pickup, delivery, freight details and timing, so you can respond while the load is still yours to win.

Email notifications

Every application and signup lands in your email the moment it is submitted, formatted and easy to read.

Spam protection

All forms are protected so your inbox receives real drivers and real freight, not junk.

Driver FAQ section

Answers to the questions drivers actually ask before applying, reducing hesitation and phone tag.

Room to grow

The site is structured so job listings, testimonials and new pages can be added as you scale toward 10 trucks.

Why this package fits your goal

Your brief says it plainly: the website should encourage drivers and carriers to sign up with you. These forms are that encouragement, turned into a working feature. For \$280 more than the basic site, the website becomes a recruiter and a sales tool, not just a brochure.

SIDE BY SIDE

Compare the packages

FEATURE	BASIC STARTER · \$450	FULL PACKAGE · \$730
Custom design, your branding	✓ Included	✓ Included
Five core pages (Home, Services, Drivers, About, Contact)	✓ Included	✓ Included
Mobile first, phone friendly	✓ Included	✓ Included
Tap to call and email links	✓ Included	✓ Included
Basic contact form	✓ Included	✓ Included
Search engine foundations	✓ Included	✓ Included
Online driver application	✗ Not included	✓ Included
Carrier signup form	✗ Not included	✓ Included
Shipper signup and quote form	✗ Not included	✓ Included
Email notifications for submissions	✗ Not included	✓ Included
Driver FAQ section	✗ Not included	✓ Included
Bug fix support after launch	30 days	30 days
Delivery time	1 to 2 weeks	2 to 3 weeks

Choose Basic if

You want a professional presence online quickly, your recruiting still happens mostly by phone, and you plan to add the forms in a later phase.

Choose Full if · Recommended

You want the website itself to recruit drivers and sign up carriers from day one. This is the package that matches the goal in your brief.

THE PLAN

Timeline, payment and proven work

Week by week

STAGE	WHAT HAPPENS	YOU WILL SEE
Week 1	Kickoff, content gathering, homepage design first for your approval, then remaining pages	Homepage preview to review
Week 2	Full site build, all pages assembled, forms built and tested (Full Package)	Complete working preview link
Week 3	Your revision round, final polish, launch on your domain, walkthrough and handover	Your live website

Basic package typically completes in 1 to 2 weeks. Full Package in 2 to 3 weeks. One structured revision round is included at each preview stage.

Payment terms

50%

Deposit to start

\$225 for Basic, \$365 for Full. Work begins on receipt.

50%

On delivery

Balance due on your approval of the finished site, before final launch handover.

Recent trucking and logistics work

COMPANY	BUSINESS	SCOPE
Fleet B Logistics	Trucking, West Palm Beach FL	Full site with owner operator signup funnel and online onboarding
Mosley Prime Logistics	Sprinter van carrier, FL and GA	Full company site with quote and contact forms
Arnold Freight Group	Freight company	Company website plus social media brand kit
SFAM Logistics	businessidentity.llc	Full logistics platform with client portal and document uploads
MC Logistics	mclogistics.delivery	Lead generation site with working capture forms

Florida trucking is my home niche. You are hiring someone who has built this exact kind of site, for this exact kind of company, multiple times.

LET'S GET STARTED

Terms and sign off

Terms and conditions

- **Your responsibilities.** Provide company details, logo if available, photos of your trucks when possible, and timely feedback at each preview stage.
- **Third party costs.** Domain and hosting are registered in your own accounts and billed at cost. You own them fully from day one.
- **Ownership.** On final payment, the website and all its files belong entirely to Total Coverage Trucking, LLC.
- **Scope changes.** New pages or features beyond this proposal are quoted separately before any work begins, no surprises.
- **Support.** 30 days of free bug fixes after launch. An optional care plan for updates and changes is available from \$50 per month.
- **Validity.** The prices in this proposal are valid for 30 days from August 10, 2026.

Package selection

- ☐ Package A · Basic Starter Website · \$450
- ☐ Package B · Full Package · \$730 **RECOMMENDED**
